

LAMSBD Board Meeting comments on Records Maintenance for the record
Monday, December 3, 2018

Last month, the LAMSBD Secretary requested Board members to release any Board documentation held by them to comply with public records requirements and to avoid confusion. Wayne Flowers reminded Trustees to provide any records because the LAMSBD Secretary is the LAMSBD Records Custodian.

This is a second reminder to the Trustees.

For example, Trustee Petrucci do you have the USB (Thumbnail) provided by Mike Kelter that included some 3,400 engineering documents?

With the Board's permission, I will help the secretary in her endeavor to gain control of the records maintenance issue. We will offer the Board a plan for their approval at the January meeting.
